

I DON'T REMEMBER

.....

Verse

I know every transgression
I know every wrong decision
I know when you lied
I know when you tried to hide it
I saw you when you did it
And I saw you do it again
I carried you through your weakness
At the point you wanted to give in

Channel

But it's ok
You see I made you
And I knew exactly what you would do
So every morning
As the day unfolds
I leave new mercies
Upon your pillow

Chorus

It's all gone
And I don't remember
I forgot it all
Like snowflakes in September
I can't recall the cold of winter
It's all forgiven
And I don't remember

Verse

I've seen every heartache
And I've seen all the pain you caused
I've seen every failure
And held you when you almost lost it all
Ooh and sometimes you were selfish
And only thought about yourself
Ooh and sometimes you couldn't help it
Afraid to put your pride upon the shelf

Channel

Chorus

Bridge

I threw it all away
Where the sea meets the ocean floor
Beneath the earth
Never to rise anymore
No more shame
And no more pain

Chorus (2x)
