

## NAVIGATE ME

.....

### **Verse**

On a distant shore I think about my life  
Rain begins to pour, no ending in sight  
I look overhead, clouds rolling in  
A purple blanket sky slowly moving  
Just before the storm begins

### **Pre-chorus**

Direct my sail, guide me in  
I need direction from you  
Stay my course, speak to the wind  
I need protection from you  
Direct my sail, guide me in  
Stay my course, speak to the wind  
I don't know which way to go  
But I know you know, navigate me

### **Chorus**

Navigate my soul, navigate me  
Navigate my soul, navigate me  
Let the light from your lighthouse shine, shine  
Navigate my soul, navigate me  
Show me the way to go

### **Verse**

Torrential are the rains pounding in my life  
The waves do crash  
I wonder, how long will it last  
I let go of the wheel  
Surrender to your perfect will  
Direct my sail, guide me in  
Stay my course, speak to the wind

### **Chorus (1x)**

#### **Bridge**

You are the captain of my life  
You are the anchor of my soul  
Chart my path and I will follow  
You are the compass for every way that I  
should go

With one word, the storm went away  
With one word, the wind and the waves did  
obey  
With one word, creation was still  
With one word, my life stepped into your will

### **Chorus (2x)**
