

WONDERFULLY MADE

.....

Verse

They say I should be uncomfortable
In this skin I'm in
They say it's too dark, too light
Something bout' it just ain't right
And I should look like they think I should

My foreheads high (too high)
My lips too big (too big)
My nose too wide
And let's not mention those thighs (those thighs)
They say I should be a size 5

Chorus

Don't wanna be the Next Top Model
Don't wanna be America's Idol
I am perfect in your sight
A pleasure in your eyes
(You love me and you like the way that I am)
Don't wanna be the Next Top Model
Don't wanna be America's Idol
You made me perfectly
I'm wonderfully made

Verse

They say I should spend more time fixing me
(You should fix yourself up girl)
Gained some weight, I should get some surgery
Enlarge this here, reduce that there
Buy a good weave
So I can have Indian hair (ooh you got good hair!)
Legs too thin, my skin is dry
Got a double chin
And let's not mention those thigh (those thighs)
They say I should be a size 5

Chorus

Bridge

I'll never be (never be)
Good enough (good enough, good enough)
For this old world (this old world)
They will not be satisfied
(they will not be satisfied)
But when you look at me
(but when you look at me)
All you see is perfect symmetry
And that's good enough for me

Chorus (2x)

Vamp

You love me and you like the way that I am
(repeat & fade)
